REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

Applicants request that a corrected filing receipt be issued to correct an error in the official filing receipt. Specifically, the filing date appears to be wrong. The Patent and Trademark Office accorded the subject application a filing date of May 8, 2003. However, Applicants fulfilled all the requirements for a filing date by December 31, 2001.

Applicants submitted an executed declaration and a fee authorization on December 31, 2001. We attach copies of each of these with a receipt from the Patent and Trademark Office.

The Patent and Trademark Office subsequently issued a Notification of Missing Requirements under 35 U.S.C. 371 in the United States Designated/Elected Office. The Notification stated that both the oath and the surcharge were due. Applicants resubmitted the

copies of documents submitted on December 31, 2001. A Filing Receipt was then issued, but it erroneously used the *resubmission* date as the filing date, rather than the first submission date.

A copy of the official filing receipt with the corrections marked in red is attached. No fee is believed to be associated with this paper since these errors occurred through no fault of the Applicants. Nonetheless, should the USPTO determine that a fee is required, please charge such fee to our Deposit Account No. 19-0733.

Respectfully submitted,

Dated: August 13, 2003

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
